

God's Action in Nature's World

Essays in Honour of Robert John Russell

Edited by **Ted Peters**, Pacific Lutheran Theological Seminary and the Graduate Theological Union, USA and **Nathan Hallanger**, Graduate Theological Union, USA

ASHGATE SCIENCE AND RELIGION SERIES

In 1981 Robert John Russell founded what would become the leading center of research at the interface of science and religion, the Center for Theology and the Natural Sciences. Under Russell's leadership the CTNS has continued to guide and further the dialogue between science and theology, and Russell has been an articulate spokesperson in calling for "creative mutual interaction" between the two fields. Focusing on three areas of Russell's work - methodology, cosmology, and divine action in quantum physics - *God's Action in Nature's World* assesses and celebrates Robert Russell's impact on the discipline of science and religion.
